

MUHAMMAD IRFAN SETIAWAN

Informatics Engineering Graduate | Aspiring Software Engineer | Web Developer | Data & ML Enthusiast

Semarang, Indonesia | irfaanmuh27@gmail.com | 085799479834 | github.com/ipankexe

PROFESSIONAL SUMMARY

Informatics Engineering graduate from Universitas Dian Nuswantoro with hands-on experience developing web-based applications and information systems through academic and practical projects. Familiar with PHP, Laravel, JavaScript, React.js, SQL, MySQL, MongoDB, Node.js, and Express.js. Also developing foundational capabilities in data analysis and machine learning, including data preparation, exploratory data analysis (EDA), visualization, and basic predictive modeling concepts.

EDUCATION

Universitas Dian Nuswantoro (UDINUS)

Semarang, Indonesia

Bachelor of Computer Science (S1) in Informatics Engineering (Teknik Informatika)

Graduated

Final Thesis: "Perancangan Sistem Point of Sales berbasis Web pada Rumah Makan Kulu Asri Menggunakan Metode Waterfall"

PRACTICAL EXPERIENCE

Diskominfo / Government Web Development Project

Practical / Internship Project

Backend / Web Development | Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, RESTful API

- Engineered backend RESTful API services handling government information dissemination, public visit requests, and emergency news feeds.
- Integrated MongoDB database schemas using Mongoose ORM for efficient data modeling, validation, and fast query execution.
- Collaborated on system features including interactive Geoportal map coordinates, image upload pipeline, and verified citizen contact submission.

Dikala Kopi Group

Operational Support

Barkit / Operational Support

- Handled fast-paced operational workflows, inventory balance checks, and precise customer order execution.
- Applied disciplined task organization, active teamwork, and adaptable communication in a high-turnover environment.

KEY TECHNICAL PROJECTS

Point of Sales (POS) Web System - RM Kulu Asri (Final Project / Thesis)

[Laravel, PHP, MySQL, JavaScript, Bootstrap]

Developed complete cashier POS system using Waterfall methodology. Features table order mapping, bill receipt printing, automated inventory su

Government Fire Department (DAMKAR) Information System

[React.js, Node.js, Express.js, MongoDB, Mongoose, Leaflet/Maps]

Comprehensive municipal portal featuring real-time fire alerts, interactive GIS geoportal map, public training visit scheduler, and administrative cor

StuntingCareNet - Toddler Nutritional Health Platform

[Laravel, PHP, MySQL, Chart.js]

Nutritional health tracking web app with multi-role access (Admin, Healthcare Staff, Parents) tracking WHO anthropometric growth indicators and s

Belajar Pintar - Interactive E-Learning Web Portal

[React.js, React Query, Context API, Reducer, Tailwind CSS]

Modern web educational application with scalable state architecture, cached asynchronous API data, modular learning roadmaps, and real-time q

High-Availability MySQL Replication Cluster

[Ubuntu Server 24.04, MySQL 8.0, Master-Slave Replication, SQL Proxy]

Designed resilient multi-node database topology featuring SQL Proxy load balancer routing writes to Master and distributing read queries to Slave

TECHNICAL SKILLS & CERTIFICATION

Programming & Web:

PHP, JavaScript (ES6+), HTML5, CSS3, Laravel, React.js, Tailwind CSS, REST APIs

Backend & Databases:

Node.js, Express.js, MySQL, MongoDB, Mongoose, SQL Query Optimization, DB Replication

Data & Machine Learning:

Data Cleaning & Preparation, Exploratory Data Analysis (EDA), Visualization, ML Fundamentals

IT & Cybersecurity:

Network Fundamentals, Linux (Ubuntu Server), Troubleshooting, Cisco Cybersecurity Essentials

Certification:

Cisco Cybersecurity Essentials — Cisco Networking Academy
